to Dr. H. Scudder Mekeel under whose direction this project was carried on. To Major G. C. Dunham, Director of Laboratories of the Army Medical School at Washington, D. C. I am grateful for the supply of sera necessary for the blood group tests. Many thanks are due to Mr. D'Arcy McNickle who asssiatnce for a short time in the field made it possible to straighten out many difficulties in the genealogical records. And to Professor E. A. Hooton, Chairman of the Division of Anthropology, Harvard University great indebtedness is due for the loan of a complete set of anthropometric instruments, as well as for his deep interest in this work.

Respectfully submitted,

Carl C. Seltzer
